HISPANIC LITERATURE:
A GUIDE TO REFERENCE SOURCES

This guide lists reference materials for research in hispanic literature. A wide range of materials is included, however it is not a complete list. The following categories of materials have been omitted:

1) Histories of hispanic literature which often contain useful bibliographies;

2) Language dictionaires. Spanish usage, etymological and translation dicticnaries, dictionaries of regionalisms, dialect or slang can be found by using the L.C. and Cutter subject catalogues.

3) Dictionaries, encyclopedias and handbooks of world literature. The PN41-PN1000 section of the reference collection contain many works in this category which provide ample coverage of hispanic authors and literature.

4) Works dealing with the literature of a specific country (dictionaries, encyclopedias, and especially bibliographies of criticism) of which there are many in the reference collection. The publication of critical bibliographies is often done on a national literature basis. Once the nationality of an author is determined, the subject catalogues can be checked under the name of the national literature for additional sources to consult, e.g. MEXICAN FICTION - BIBLIOGRAPHY, or ARGENTINE LITERATURE - HISTORY AND CRITICISM - BIBLIOGRAPHY, etc.

5) Bibliographies of works by and about specific authors. The reference collection holds many hispanic author bibliographies. These can be found by checking the subject catalogues under the author's name as subject e.g. GARCIA MARQUEZ, GABRIEL - BIBLIOGRAPHY.

One of the peculiarities of Spanish bibliographic practice which should be mentioned concerns compound Spanish surnames. The form of entry for an individual author may vary from bibliography to bibliography. In addition there may be variations from the form of entry used in a bibliography and the one used in the McGill Union Catalogue. When in doubt try all possible elements of the name or ask a reference librarian for assistance. Note also that in the McGill Union Catalogue, single surnames are filed before compound surnames beginning with the same first word. For example, Gonzalez, Valentin files before Gonzalez Alberdi, Paulino which in turn files before Gonzalez y Rodriguez de la Pena, Hipolito.

Some of the bibliographic resources in this guide include titles which are not available in the McGill libraries but which may be borrowed from the Center for Research Libraries. Specialized research materials collected by CRL are available on interlibrary loan for an extended loan period. The relevant titles in this guide are noted. For details on the publications and services available from CRL please inquire at the reference desk or interlibrary loan service.

Other guides produced by the Reference Department which may be useful include: Caribbeana: a Student's Guide to Reference Sources, Comparative and General Literature: a Student's Guide to Reference Resources, Latin America: a Student's Guide to Reference Sources, and Translations: a Student's Guide to Reference Sources in the Humanities. These guides are available for consultation at the reference desk or may be purchased at the Copy Service.

Not all locations for items in this bibliography have been cited. If you wish to obtain additional locations, please check the McGill Union Catalogue under the entry used in this bibliography. Unfortunately, it has not been possible to use accents in the typing of this guide.

If you have any difficulty using this bibliography or any of the reference sources listed in it, please do not hesitate to ask for assistance from a reference librarian.

Volume II contains biographical articles on Spanish and Spanish American writers from all periods with bibliographic references. Alphabetic arrangement in each volume. IV. BOOK REVIEWS

It is generally difficult to locate reviews of Spanish books as the MLA International Bibliography and other periodical indexes (see section VIII) do not cover the book review sections of the journals they index. The following list of journals carry regular book review sections. It is not a complete list. To identify other journals which carry book reviews see section II. A. & B. Book Reviews: A Guide to Locating Reviews of Books in the Social Sciences and Humanities can also be consulted. When browsing through journals for book reviews it is a good practice to check as far as three or four years after a book's publication date. Book reviews in hispanic journals often appear long after a book is published.

Journals which carry book reviews in Spanish include: Cuadernos Hispanamericanos (AP63 .C6697 McLen), Insula (Z1007 .I54 Ref), Nueva revista de filologia hispanica (PC4008 .N84 McLen), Revista de filologia espanola (PQ6001 .R45 McLen), Revista interamericana de bibliografia. Inter-American Review of Bibliography (Z1007 .R4317 Ref.), Revista de literatura (PC4008 .B8 McLen).

Journals which carry book reviews in English include: Bulletin of Hispanic Studies (PC4008 .B8 McLen), Hispania (brief reviews) (PC4001 .H7 McLen, Educ), Hispanic Review (PQ6001 .H5 McLen, Educ), Revista interamericana de bibliografia. _____. _____. Supplement, 1st, 1971-4th, 1977.

An author, title and subject catalog representing the holdings of the University of Texas at Austin, which is considered to have the best Latin American collection in the United States. The collection covers books, pamphlets, periodicals and newspapers published anywhere in the world, in all subject areas relating to all Latin American countries. It is especially strong in bibliography, history, literature and the social sciences. The first supplement includes entries for the letters HILEA-HISPANIDAD A which were "inadvertently omitted" from the basic set. Since 1978 the catalog has expanded its coverage to include materials catalogued by the Library of Congress.

A useful though somewhat flawed bibliography. Covers about 200 authors listing principle works followed by a selective list of bibliographies and critical studies. Includes book reviews and doctoral theses. Peculiar arrangement necessitates use of the table of contents to locate all material for a specific author. A number of typographic and bibliographic errors have been reported. Fails to give original publishing information for works translated into Spanish.

More useful for individual author anthologies, bibliography, biographies and criticism. Arrangement by author of work rather than individual literary figure treated is a drawback. Access through name index [which refers to entry number]. Not useful for thematic or genre research. Excludes periodical literature. No annotations. Rela's work largely but not entirely supersedes Leguizamon, Julio A. Bibliografia general de la literatura hispanoamericana (Z1609 .L7L4 Ref).
